

CONSTRUCTION SUPERVISION SERVICES

PROJECTS

SITE PREPARATION FOR COMMERCIAL PREMISES EKZ II AND ROAD CONSTRUCTION PROJECTS FOR THE ROAD JUNCTION KLAGENFURT-EAST ECOLOGICAL CONSTRUCTION SUPERVISION

Ecological construction supervision within the construction of a projected IKEA-store and the extension of a neighboring motorway junction according to nature protection decrees issued by the municipal authorities of the city of Klagenfurt.

Implemented measures:

- * Creation of ecological compensation areas: reforestation measures of a dry forest site, creation of wetland areas with small ponds, widening of stream channels, creation of oxbow lakes and ecological succession areas.
- * Ecological design of purification and retention basins
- * Translocation of vegetation and fauna
- * Greening and planting measures along roads and in compensation areas
- * Implementation of protection measures for amphibians
