CONSTRUCTION OF A BOAT SHELTER AT THE LAKE WÖRTHERSEE NATURE CONSERVATION AND WATER LAW RELATED SUBMISSION DOCUMENTS

Project description

Preparation of the required nature conservation and water law submission documents for the projected construction of a boat shelter in the open water surface of the Wörthersee.

Evaluation criteria according to the Carinthian Nature Conservation Law:

- Impacts on the physical appearance of the landscape
- Impacts on the characteristics of the landscape
- Impacts on the ecological structure of the affected ecosystem

The provided visualization of the design serves as basis for argumentation.
