PROJECTS

LANDSCAPE CONSERVATION SUPPORT PLANNING DESIGN OF NOISE PROTECTION BARRIERS S36 MURTAL SCHNELLSTRASSE / AUSTRIA

Project description

In the scope of the landscape conservation planning and the design of the noise protection barriers basic intentions of the "Corporate design" proposed in the preceding design competition were to be put into concrete terms and in cooperation with further experts adjusted to the requirements of the technical plans. A photomontage has been prepared for selected sections and presented at road shows to illustrate the planned measures.

Services

- Preliminary draft, draft, implementation and detail planning
- Tendering procedures
- Artistic supervision
