

PROJECTDEVELOPMENT AND -MANAGEMENT

PROJECTS

MANAGING NATURAL ASSETS AND PROTECTED AREAS AS SUSTAINABLE REGIONAL DEVELOPMENT OPPORTUNITIES NATREG

Berchtold *land.plan* was assigned to mentor the transnational and EU-co-financed NATREG-project which, according to the motto »development with nature«, deals with regional development potentials based on natural resources.

Project partners from Slovenia (Lead Partner), Emilia Romagna and Veneto (Italy), Croatia, Vojvodina (Serbia) and Styria as well as Carinthia (Office of the Carinthian Government, Subdepartment for Conservation of Nature) were taking part in this transnational project.

The project partners specifically addressed themselves to individual pilot-regions (protected areas), the focus of interest in Carinthia (Austria) was the Natura-2000-site »Vellacher Kotschna«.

To establish sustainably effective and considerate regional development also in nature conservation areas was the main aim of the project.
