

SKIING AREAS

PROJECTS

SLOPES STUDY SINAIA (ROMANIA)

The Youth Olympic Games 2013 will take place in Romania. The alpine skiing competitions will partly be carried out in the ski resort of Sinaia, therefore the municipality plans to modernize and extend the existing ski slopes.

The definition of the new ski slope areas has been performed on the basis of site visits and a GIS analysis of the digital terrain model.

Services

- GIS-data analysis
- Analysis of the existing infrastructure, SWOT-Analysis
- Proposals for actions focusing on the construction of FIS-compliant racing slope
- Cost assessment

Client

Municipality Sinaia
2009
